

HEATED DEF TOTE BLANKETS

Flexotherm™ manufactures heated Diesel Emission Fluid (DEF) tote blankets to help protect the fluids from low temperatures and to extend the shelf life of them. Providing a complete and even heat throughout, the tote blankets are the best way to protect your investment.

FEATURES

- Available in 275 and 330 Gallon models
- Protected by an integrated GFCI
- Constructed of heavy-duty, rugged vinyl that is water, wear, and UV resistant
- Can be customized to your specifications and application.
- Adjustable straps for a secure and complete fit.
- Works with metal and poly totes
- Ideal for epoxies, DEF, water, chemicals, resins, rubber, etc.
- Utilizes a HeatGrid™ Heating Element
- The HeatGrid heating element increases temperature during the first 20 minutes of operation, while electrical current decreases.
- HeatGrid™ is comprised of electrode terminals that provide a rapid heat source
- Utilizes Far Infrared Technology
- DEF Tote Systems include external frame, controller, and insulated cover

TECHNICAL INFORMATION

Model	330 Gallon DEF Tote System
Approx. Temp.	Controlled to desired temp.
Voltage	120 VAC
Wattage	1440 Watts
Amps	12 Amps
